

XAMPP installation

1. Download/collect the installation file

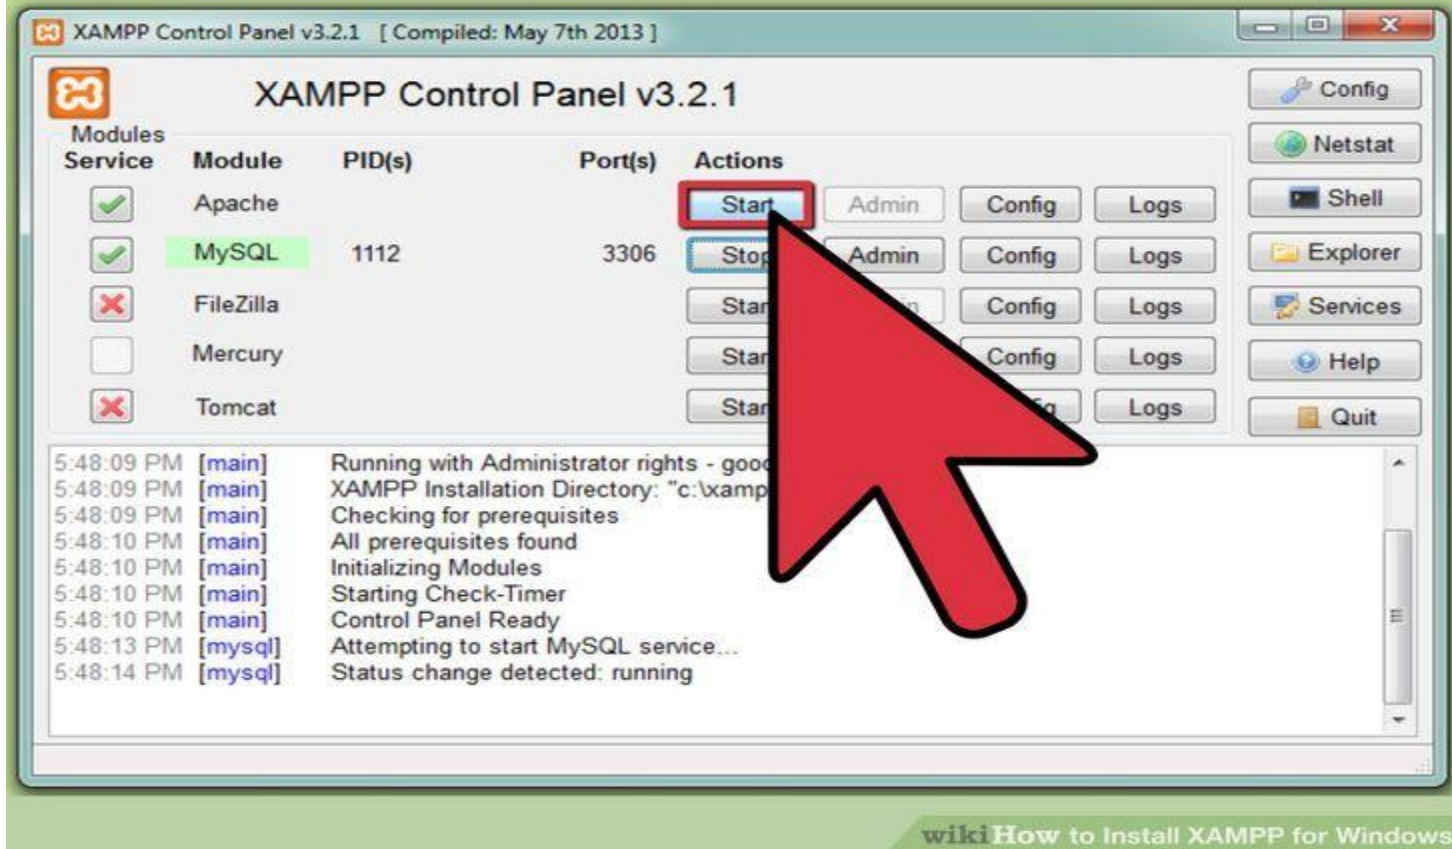

2. Install the program, and click on "Run."

3. Accept the default settings.

4. Start the XAMPP Control Panel

- Start the Apache and MySQL components. You can also start the other components, if you plan to use them.

Once the configuration is done, go to <http://localhost/> in your web browser. You will see the XAMPP splash screen first, asking you to select your language. The web-based XAMPP panel will then appear.

The image shows the XAMPP for Windows splash screen and the web-based XAMPP panel. The splash screen has a yellow background and features the XAMPP logo (an orange square with a white 'X' inside a circle) and the text "XAMPP for Windows" in large black font. Below this, it says "Welcome to XAMPP for Windows!" and "Congratulations: You have successfully installed XAMPP on this system!". There is also a message: "+++++ +++++ A great thank you to hackattack142 for this new fi". The splash screen includes a sidebar on the left with links to "XAMPP 1.8.1 [PHP: 5.4.7]", "Welcome", "Status", "Security", "Documentation", "Components", "Php", "phpinfo()", "CD Collection", "Biorhythm", "Instant Art", "Phone Book", and "Perl". The main content area of the splash screen shows a screenshot of a Mozilla Firefox browser window displaying the XAMPP web interface. The browser window title is "XAMPP 1.8.0 - Mozilla Firefox". The address bar shows "localhost/xampp/". The web interface has a yellow background and features the XAMPP logo and the text "XAMPP für Windows". There are language selection links: "English / Des", "Norwegian / I".

Database server

- Server: 127.0.0.1 via TCP/IP
- Server type: MySQL
- Server version: 5.6.24 - MySQL Community Server (GPL)
- Protocol version: 10
- User: root@localhost
- Server charset: UTF-8 Unicode (utf8)

Web server

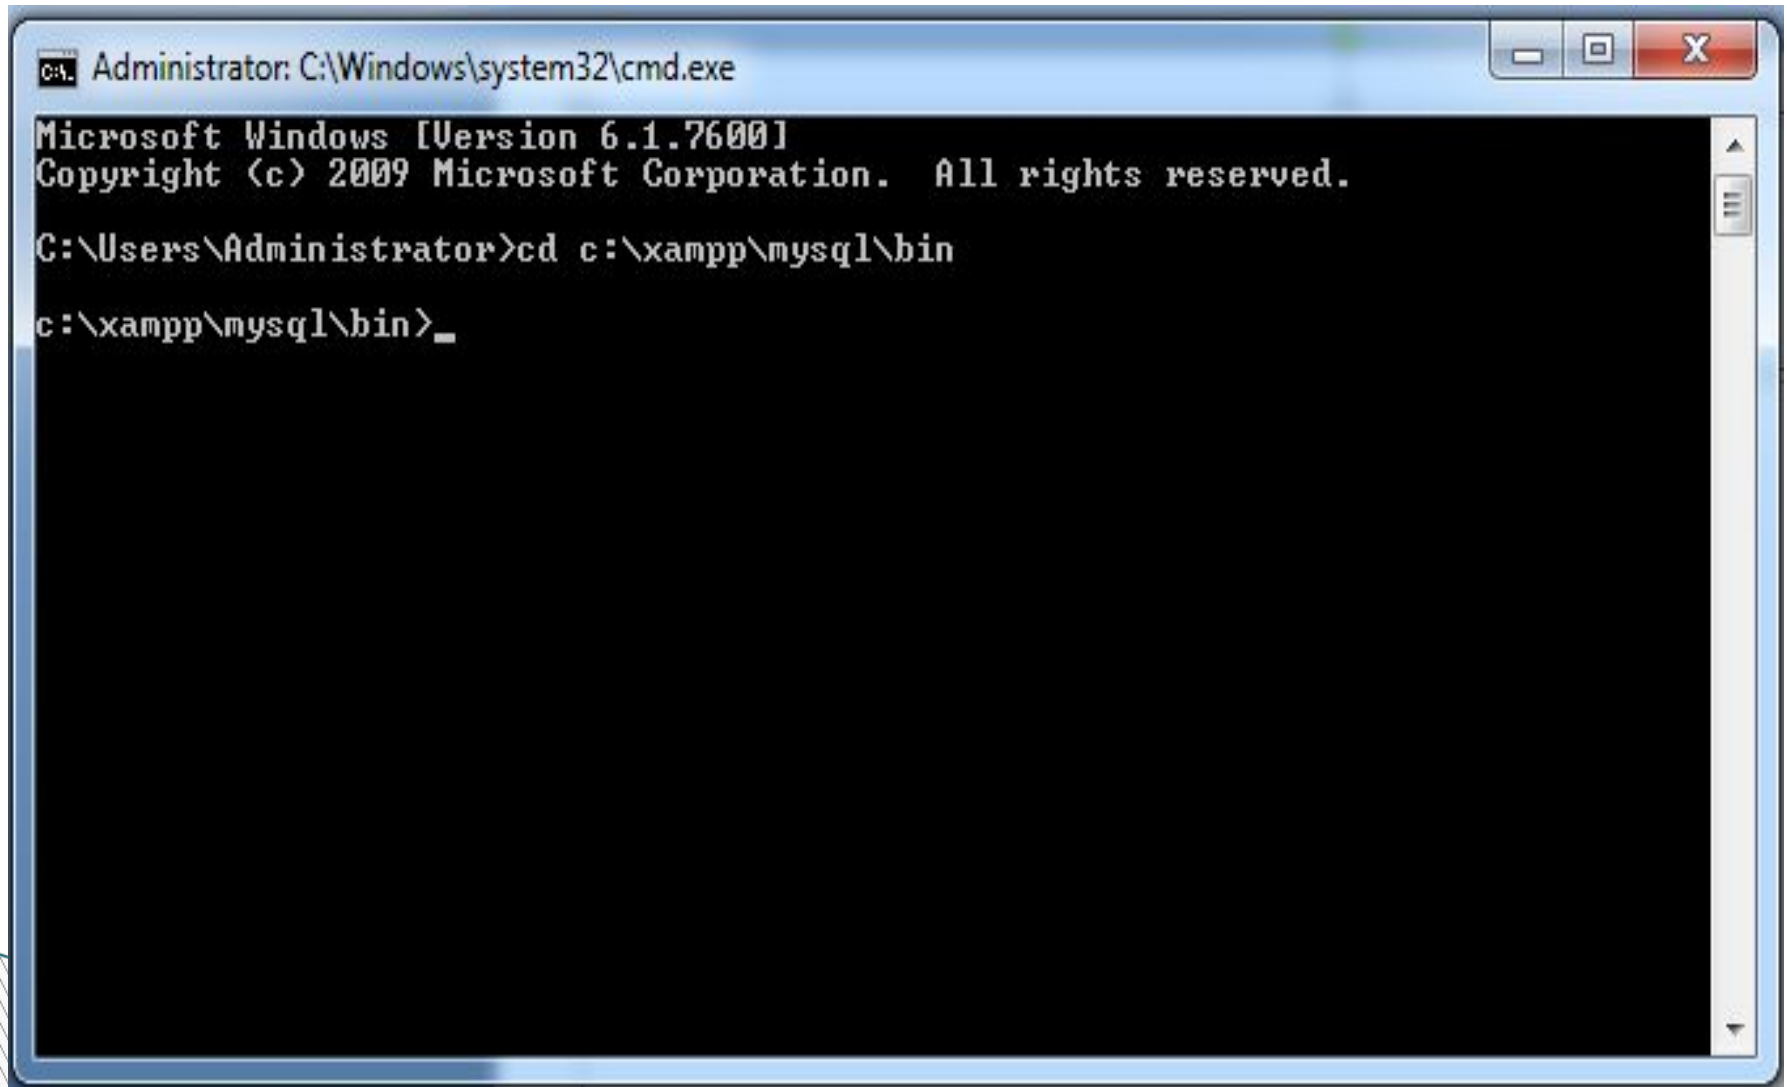

- Apache/2.4.12 (Win32) OpenSSL/1.0.1f PHP/5.6.8
- Database client version: libmysql - mysqlnd 5.0.11-dev - 20120503 - \$Id: 3c688b6bbc30d36af3ac34fdd4b7b5b787fe5555 \$
- PHP extension: mysqli

Using mySQL in command prompt

- RUN cmd

cd c:\xampp\mysql\bin

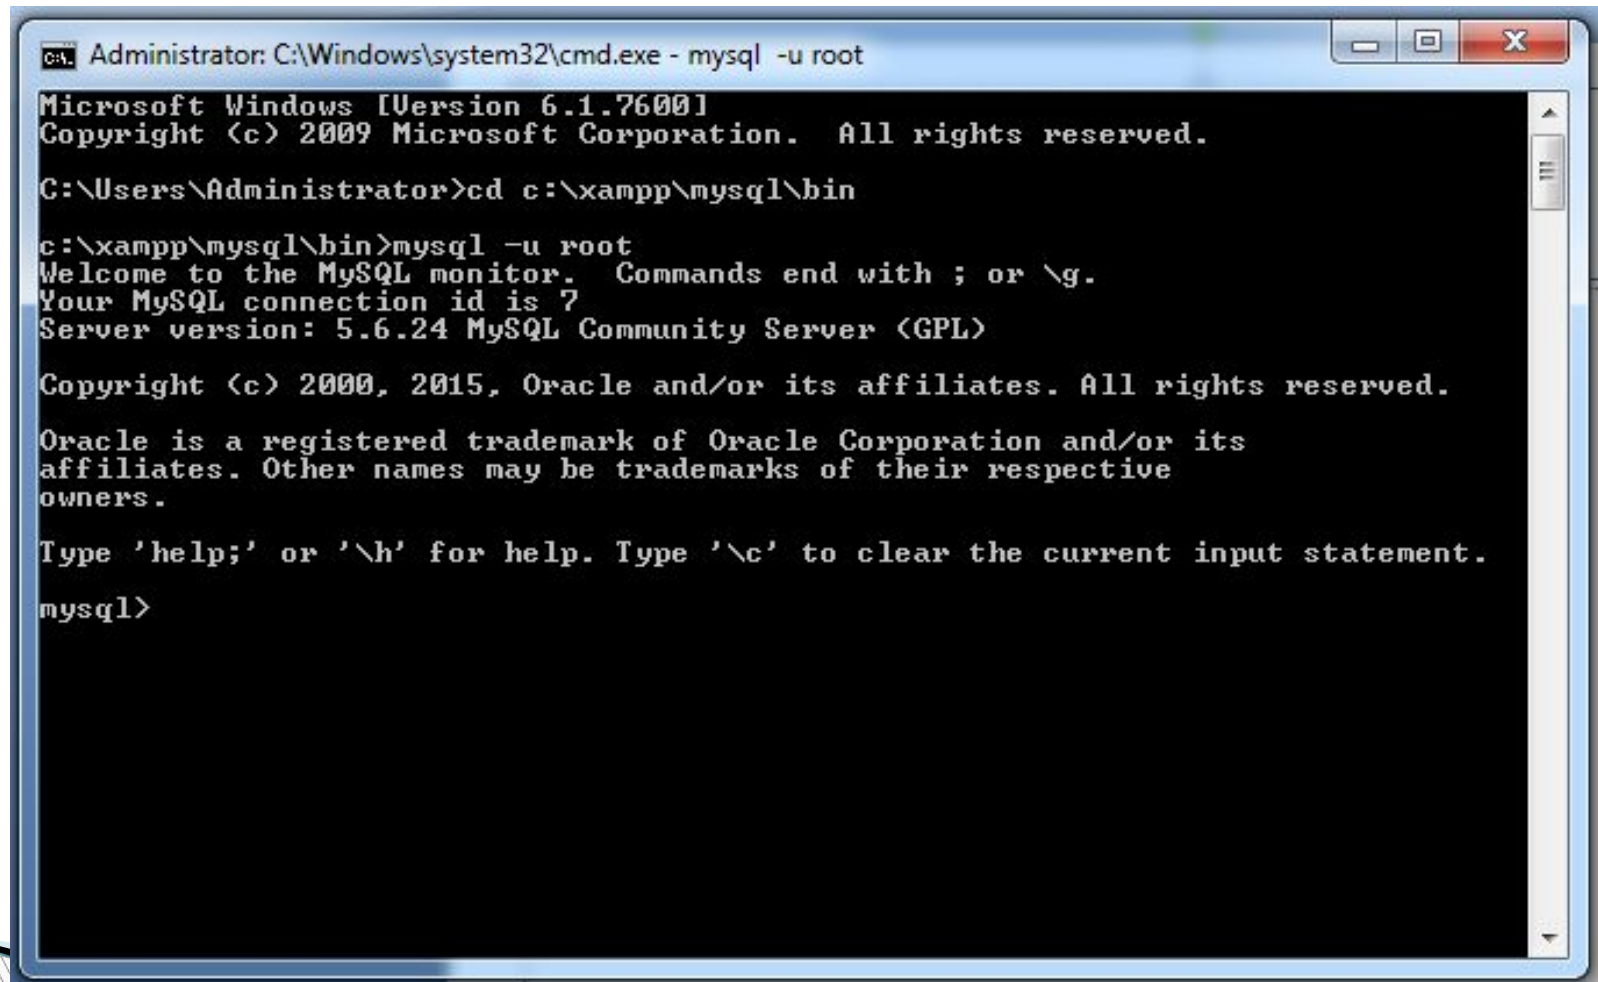

A screenshot of a Windows command prompt window. The title bar reads "Administrator: C:\Windows\system32\cmd.exe". The window contains the following text: "Microsoft Windows [Version 6.1.7600] Copyright (c) 2009 Microsoft Corporation. All rights reserved. C:\Users\Administrator>cd c:\xampp\mysql\bin c:\xampp\mysql\bin>_". The command prompt is running as an administrator.

```
Administrator: C:\Windows\system32\cmd.exe
Microsoft Windows [Version 6.1.7600]
Copyright (c) 2009 Microsoft Corporation. All rights reserved.

C:\Users\Administrator>cd c:\xampp\mysql\bin
c:\xampp\mysql\bin>_
```

mysql -u root

```
Administrator: C:\Windows\system32\cmd.exe - mysql -u root
Microsoft Windows [Version 6.1.7600]
Copyright (c) 2009 Microsoft Corporation. All rights reserved.

C:\Users\Administrator>cd c:\xampp\mysql\bin

c:\xampp\mysql\bin>mysql -u root
